Phone: (613) 790-6818

SUMMARY OF QUALIFICATIONS

- Over 8 months of experience working with front-end development languages (**HTML**, **CSS**, and **JavaScript**)
- Proficient with programming languages such as **C++**, **C#**, **Java**, and **Python**
- Familiarity with **Object-Orientated Programming Concepts**, **MySQL**, and **Git**
- Ability to proficiently work alone without constant supervision demonstrated through the independent completion of three personal projects
- Excellent analytical and problem-solving skills illustrated by outstanding achievements in UWaterloo Contests
- Strong teamwork and communication skills developed through more than 2 years of experience in tutoring

PERSONAL PROJECTS

Personal Website (www.minglunli.com)

June 2015 – Present

- Designed and built a personal website from scratch
- Developed the web interface using jQuery and page structure/layout with HTML and CSS

Windows Calculator

July 2015

- Developed a modified version of Windows Calculator with C# using Visual Studio IDE
- Designed the suitable UI (user interface) for the application using Windows Form Designer

Flying Pig

May 2015 – June 2015

- Developed a computer game similar to Flappy Bird in Java with keyboard and mouse-click controls
- Integrated an infinite loop system that allows the game to proceed limitlessly

WORK EXPERIENCE

Kumon Math & Reading Centre

Grader/Tutor

February 2013 – June 2015

- Independently graded over 70 assignment packages each shift (3 hours), thereby exceeding expectations
- Worked closely and tutored students with learning disabilities and different language barriers

ACTIVITIES AND INTERESTS
